

Notes for drummers / baterias

We have been researching beat-making and programmes for samba drums & percussion, with the ability to manipulate individual drum parts and share with others – whilst being compatible with iOS and Android. This might be useful for taking the original 'Enough is Enough' drum arrangement and reworking it to suit your group.

DrumAp is downloadable as a free app for smartphones. <http://drumap.com>

Drumap audio files for 'Enough is Enough' middle section groove, final section groove & final section break can be found in the *Audio Files* section of the *Downloads* page – or if you have DrumAp on your smartphone, click the links below.
